

DEA releasing her EP "STORM" october 1st

Finally DEA is releasing her first solo EP.

Based in Stockholm but all songs written in her old farmhouse in the south of Sweden.

★ **" - *That's where I find my inspiration and whenever I have days off, I escape to this place where music and nature are my best friends. It's about finding the balance in all you do.* "**

After many years of touring with bands and backing up artists she realized that the audience actually wanted to hear more of her.

It was after the worldtour with Roxette 2012 she decided to record some of her songs. Thanks to the loving fans around the world this EP is now here!

Two of the songs are written together with the guitarist Jens Frithiof, who also introduced DEA to the producer Andreas Dahlbäck (Peter LeMarc, Anna Ternheim, Tomas Andersson Wij, Ulf Lundell). The two were a perfect match!

With DEAs influences (Bon Iver, Ray LaMontagne, Radiohead, to name some..) and with Andreas passion to create, they felt strongly about giving each song it's own world and to bring you along on a journey...

★ **"- *This has been an amazing process for me, from the writing part in the woods, to finally having this EP in my hand! A bit of me and where I am musically today...* "**
